Job Title: Developer

Company: JamaFo Jamaican Food Brands LTD

Location: St. Ann, Jamaica

Job Type: Part-Time

Job Description:
We are seeking a skilled and motivated Developer to join our dynamic development team. As a Developer, you will be responsible for designing, coding, and modifying software applications according to business requirements. You will collaborate with cross-functional teams to develop high-quality software solutions that meet our needs. The ideal candidate must have a strong understanding of programming principles, excellent problem-solving skills, and a passion for developing innovative solutions.

Responsibilities:

- Design, develop, and maintain software applications using industry best practices.
- Collaborate with product managers, designers, and other stakeholders to gather requirements and define project specifications.
- Write clean, efficient, and well-documented code.
- Debug and resolve software defects and issues.
- Conduct code reviews and provide constructive feedback to ensure code quality.
- Stay up-to-date with emerging technologies and industry trends to continuously improve development processes and tools.
- Collaborate with team members to develop and execute test plans and ensure software quality.
- Assist in the deployment and configuration of software applications.
- Contribute to the continuous improvement of development processes and methodologies.
- Participate in team meetings, discussions, and knowledge-sharing activities.

Qualifications:

- Bachelor's degree in Computer Science, Software Engineering, or a related field (or equivalent experience).
- Proven experience as a Developer or similar role.
- Strong knowledge of programming languages such as Tailwind CSS, PHP, Python, or JavaScript.
- Experience with web development frameworks (preferably Vue.js and Laravel).
- Familiarity with databases and SQL.

- Solid understanding of software development principles, methodologies, and best practices.
- Proficiency in version control systems (Git).
- Excellent problem-solving and analytical skills.
- Strong communication and collaboration abilities.
- Ability to work effectively in a fast-paced, dynamic environment.
- Attention to detail and a commitment to producing high-quality code.

Preferred Qualifications:

- Experience with cloud platforms (e.g., AWS, DigitalOcean).
- Knowledge of DevOps practices and tools.

We offer competitive compensation packages, a supportive work environment, and opportunities for professional growth and development. If you are passionate about software development and enjoy working in a collaborative team, we would love to hear from you.

To apply, please submit your resume, cover letter, and any relevant portfolio or project samples to www.jamafo.com/employment
